Join Us at the Disability Pride Parade

We had so much fun at last year’s event and we’re gearing up for another Disability Pride Parade on Sunday, July 15th at 10am starting in Madison Square. Check out the event listing on Facebook or see the calendar below for more details.

CIDNY Speaks with International Delegations

CIDNY was recently invited by the U.S. Department of State to address visitors from the People’s Republic of China. Their objectives included examining federal, state, and local legislative measures and programs that support people with disabilities in the areas of education, housing, and employment; illustrating American perspectives on the rights of the disabled, and the respect for physical diversity and neurodiversity as they contribute to a dynamic civil society; and showcasing a broad range of grassroots advocacy initiatives, resources for parents and families, public awareness campaigns, and self-advocacy tools for adults with disabilities.

We were also asked by Members of the European Parliament responsible for Human Rights & Social Affairs who were visiting NYC for a meeting of the Convention on the Rights of People with Disabilities to speak about the status of people with disabilities and implementation of civil rights law.

Earlier this year, we hosted delegations from Kazakhstan, Pakistan, and South Korea. Next month, our colleagues at Brooklyn Center for Independence of the Disabled (BCID) and Disability Rights Advocates will join us for a discussion with delegates from Taiwan on emergency planning and people with disabilities.

Child Victims Act Update

We continue to call upon State lawmakers to pass the Child Victims Act. Children with disabilities are 2.9 times more likely than children without disabilities to be sexually abused. Children with intellectual or mental health disabilities appear to be more at risk, with 4.6 times the risk of sexual abuse as their peers without disabilities. Many survivors delay reporting and are less likely to be believed when they do report.

Assembly Member Rosenthal continues to advocate for the victims/survivors of childhood sexual abuse. Whenever we go to Albany, she opens her office as a strategy and gathering space.

We are opposing the Senator Young bill, which lets powerful institutions with deep pockets out of their obligations to victims of child sexual abuse (CSA).

- The Asset Forfeiture Fund sweeps funds to programs that aid other survivors, e.g. a program to end the Rape Kit backlog, and not the person who filed the claim.
- It does not hold abusers and those who covered up or perpetuated abuse accountable. It does not require them to pay anything to their victims. It doesn’t allow for negligence claims against the institutions.
- It lets insurers, who have collected payments to cover negligence, off the hook.
- It establishes a process for survivors of CSA that is unlike the process for other damaged parties.
- It does nothing to expand the civil statute of limitations going forward.
- It requires a 90-day waiting period to file a claim.
- It will limit awards because the fund has a cap.
• The chief administrator can maintain a publicly accessible website listing the names of the perpetrators of the abuse, the approximate time of the abuse and approximate geography.

We will continue to fight for the passage of the “real” Child Victims Act. You can contact Senate elected officials to vote against the Young bill.

Project Open House

Administered by the Mayor’s Office for People with Disabilities (MOPD), Project Open House removes architectural barriers in the homes of people with permanent disabilities. This program is designed to increase independence in the activities of daily living, thus helping people with disabilities remain a part of their communities. POH provides an opportunity for many individuals to modify their living environments.

Examples of work covered under this program

- Widening doorways,
- Conversion of steps into ramps,
- Replacing existing plumbing fixtures with accessible fixtures,
- Removal of sink base cabinets to provide an accessible work surface and/or a sink,
- Installation of accessible amenities such as grab bars, door openers, accessible door handles, accessible height shelving,
- Installing accessible railings,
- Installation/conversion of residential doorbell and/or smoke and carbon monoxide detectors when an audible or visual system is needed or other barrier removals that may be required by individuals with disabilities subject to review by MOPD.

Eligibility Requirements

- Reside within the 5 boroughs
- Have a permanent disability
- Meet Section 8 Income Guidelines.
- Building owner must allow MOPD to perform the work.

Application process opens July 1st, 2018. For more information about Project Open House visit nyc.gov/POH or dial 311.

All of Us Includes People with Disabilities

If you missed our special guest presentation on All of Us, you can still watch it on Facebook Live. All of Us seeks to enroll “one million or more” participants in a longitudinal research cohort to improve our ability to prevent and treat disease based on individual differences in lifestyle, environment, and biological makeup, including genetics. The program aims to oversample communities that have been underrepresented in research to make it the largest, most diverse resource of its kind. People ages 18 and older, regardless of health status, are eligible to enroll, including people with disabilities.

Legislative Update

The NYS Legislature wound up its 2018 legislative session as scheduled on June 22nd without passing numerous important bills that CIDNY consumers lobbied. One bill, that has been languishing since 2009, is legislation that would establish safe staffing levels for hospitals and nursing homes. The bill did come to Governor Cuomo’s attention, though, and he put out a statement:

“One of the issues that has not been addressed this year is the level of care provided in our hospitals and nursing homes and the staffing levels of nurses and health professionals. We know that quality of care is directly linked to appropriate staffing levels.

Next session I will introduce legislation allowing the Department of Health to set safe staffing levels by regulation as legislative solutions have not been forthcoming.”

Our friends at the Long-Term Care Community Coalition are suggesting that you consider making a call or sending an email to let the Governor know that you support safe staffing standards which should, minimally, ensure that every nursing home resident receives at least 4.1 hours of care per day. You can call Governor Cuomo’s office at 518-474-8390 or email him.
